

ID	Category	Name	Description
1	Bush Tucker	Alpinia caerulea (Native Red Back Ginger)	Native (East Australian) rainforest ginger. Leaves are up to 40cm long. 30cm blue flower spikes followed by edible berries. The fruit (including seed) can also be ground and used as a spice or to impart a distinct flavour & red colour to herbal teas. Centers of new shoots are also edible and have a mild ginger flavour. The roots are an excellent earthy ginger. Grow in part shade to 70% sun. Tolerates morning sun
2	Bush Tucker	Bandicoot Berry	High medicinal value edible native rainforest plant. Shoots are edible, as well as fruits (although the latter can sting the mouth similar to pineapple). Leaf extracts have anti-anxiety and pain relief qualities. White flowers and fruit attract many butterflies and birds. Lush leaved with growth habit similar to bamboo.
3	Bush Tucker	Davidson Plum	Native to tropical rainforests in Queensland and Northern NSW, fairly rare in the wild. VERY unique looking tree that grows to around 5m. It has a very slender bare trunk (where the fruit is produced), with a tuft of attractive palm like foliage at the top. Despite its height, it takes up very little space due to the thinness of the trunk and can fit in the smallest of backyards with no issues. The tasty, attractive, purple fruit has deep red flesh that can be eaten raw, made into jams/sauces/chutneys or wine. The fruit is extremely nutritious. It has more antioxidants than blueberries, 100 x more Vitamin C than oranges, contains potassium, lutein (a compound important for eye health), vitamin E, folate, zinc, magnesium and calcium.
4	Bush Tucker	Finger Lime - Mix	Native rainforest tree to SE QLD. Cylindrical fruit contains little balls of juiciness that burst in your mouth with a delicate lime/lemonade taste. Can be used in many creative ways in cooking, such as seafood, drinks etc. Can also be enjoyed fresh. Absolutely delicious and very sought after. Fruit can be frozen without destroying the flavour or texture. Can also be kept to a pot and still fruit. Full sun. Host to the Dainty Swallowtail Butterfly, Orchard Swallowtail Butterfly.
6	Bush Tucker	Gumbi Gumbi	Native to low rainfall areas of Southern Australia, this drought hardy tree is known for it's multi-used fruit, which changes from green to orange/yellow when ripe and splits open with red sticky seeds. Seeds/Fruit Pulp can be infused and either eaten for food (tastes like Apricot) or to relieve pain/cramps, and to improve symptoms of a cold. Potential anti carcinogenic qualities have been exhibited by this plant. Extremely rare. Full sun.
7	Bush Tucker	Macadamia	The first Australian native food plant to be grown by non-indigenous Australians as a commercial crop. Very hardy. Full sun. Fruiting season is March through August. Host plant for Pencilled Blue Butterfly Hairy Line Blue Butterfly, Purple Line Blue Butterfly, Felders Line Blue Butterfly.
8	Bush Tucker	Midgen Berry	Midgen Berry'. Native Rainforest Plant around QLD/Fraser Island. Spreading ground cover Shrub to 1m tall. Glossy attractive dark green leaves White berries are edible with a sweet taste. Full sun. One of the tastiest edible native fruits! Fruits profusely in summer and Autumn. Can be grown as a border, rockery, feature, hedge or pot plant. Crisp and juicy, mild flavour with blueberry taste and a hint of ginger, eucalyptus and nutmeg.
9	Bush Tucker	Native Mangosteen	Native rainforest plant (North QLD). It has beautiful scented flowers resembling common Gardenia. Can be container grown both indoors or outdoors. Flowers in September through May. Fruiting season is April to June. The very delicious fruit can be eaten fresh when yellow
10	Bush Tucker	Native Mulberry	A delicious bush tucker, reminiscent of a cross between traditional Mulberry and Strawberries. Not deciduous like the classic Mulberry. An important butterfly host plant, particularly the rare native Jezebel Butterfly. Flowers and fruits December to June, potentially year round. Native SE QLD Rainforest plant. Full sun or part shade. Very hardy.
11	Bush Tucker	Syzygium aqueum (Watery Rose Apple/Jambu)	Native bush tucker tree cultivated for it's beautiful wood and delicious fruit. Fruit is a red berry. Even the leaves are edible! The incredibly juicy fruit has a mild sweet taste similar to apples and a crisp watery texture like Watermelon. Fruit may be preserved for months. 8m h.
12	Bush Tucker	Syzygium oleosum (Blue Cherry)	Beautiful small tree native to Eastern Australian Rainforests. Attractive glossy leaves that are very aromatic when crushed, smelling similar to mango. The fruit is delicious, with a unique sweet ginger taste and a crisp texture. The fruit can be enjoyed fresh or made into jams or wine.
13	Exotic Climber	Jasmine - Sambac	Extremely fragrant evergreen climber or scrambling groundcover 2m high x 2m wide.
14	Exotic Climber	Madagasca Jasmine	An incredibly versatile plant - one that is also a perfect indoor plant which will add a spectacular fragrance to a room. Glossy large evergreen leaves and an abundance of star flowers will bloom generously Spring through Summer. Can be pruned back harshly to shape. Also works well as a trellis plant or a fence cover. Personally I love these plants as an archway leading into a front door. It really creates an eye catching statement. One of the rarer 'jasmine' varieties in cultivation.
15	Exotic Climber	Mix Climbing Roses	
16	Exotic groundcover	Agapanthus Silver Baby	
17	Exotic groundcover	Chrysanthemum - White	
18	Exotic groundcover	Cuphea (Mexican Heather)	Compact evergreen dense little ball of foliage with masses of mauve flowers Spring through Autumn. Great for low borders or pots. Very hardy and drought tolerant once established. Full sun or part shade tolerant.
19	Exotic groundcover	Evolvulus pilosus (Blue Sapphire)	A very effective landscaping plant for hanging baskets, rockeries, low borders, hanging over retaining walls or as a weed suppressing groundcover. Bright blue flowers cover the plant Summer through Autumn. Grows in a neat mound. Very hardy. Tolerates full sun or part shade.
20	Exotic Groundcover	Lemongrass	
21	Exotic Groundcover	Pogonatherum paniceum (Baby Panda Grass)	A disease proof, hardy and very compact/dense small ball of foliage which is perfect for around ponds, retaining walls or rockeries. Tolerates full sun or part shade.
22	Exotic groundcover	Tropical Tulips - Snowcap	
23	Exotic groundcover	Zoysia tenuifolia	

24	Exotic Shrub	Azalea Shiraz	Warm burgundy maroon foliage can be clipped neat or left to grow as a dramatic hedge. Can be grown in part shade or full sun. Bright red flowers in Spring as a bonus.
25	Exotic Shrub	Camelia - Cherylin	Stunning medium sized pink flowers in the cooler months of the year. Very hardy and can be utilised as a pot plant, espalier, hedge, screen or head turning specimen plant. Tolerates full sun or part shade.
26	Exotic Shrub	Camelia - Early Pearly	
27	Exotic Shrub	Camelia - Rose Ann	
28	Exotic Shrub	Camelia sinensis (Tea Leaves)	The actual Camelia used to make Tea Leaves! A beautiful dwarf shrub in its own right with fragrant white flowers. White, yellow, green, oolong & black tea are all harvested from this plant via different processes to achieve varying levels of oxidation. Can easily be done at home.
29	Exotic Shrub	Cordyline - Early Morning Diamond	
30	Exotic Shrub	Cordyline - Miss Andrea	
31	Exotic Shrub	Dracaena - Rainbow	
32	Exotic Shrub	Euonymus Tom Thumb	A very neat rapid growing compact shrub which is perfect for formal hedges or small shaped shrubs. Can be pruned into perfect ball shapes. Tolerates full sun or part shade.
33	Exotic Shrub	Golden Beehive Ginger	
34	Exotic shrub	Hydrangea - Alpen Gluten	
35	Exotic Shrub	Japanese Cypress	
36	Exotic Shrub	Lavender - Mixed Ruffles Series	
37	Exotic Shrub	Michelia Coco	Beautifully scented small creamy flowers resembling little Magnolias (actually is in the magnolia family), edged in burgundy bloom throughout Spring and Summer. Has very glossy dense foliage, making it excellent as either a specimen or hedging/screening plant. Very attractive flower for native bees and butterflies. Can thrive in both a sunny or part shaded position. Some of the biggest flowers of all Michelia varieties.
38	Exotic Shrub	Mix Hybrid Tea Roses	
39	Exotic Shrub	Murraya Min a Min	
40	Exotic Shrub	Nerium Isabella	
41	Exotic Shrub	NZ Christmas Bush	
42	Exotic Shrub	Oleander - Double Pink	
43	Exotic shrub	Pandan	This is a very versatile lush tropical plant suitable especially for poolside plantings or in any productive herb/veggie garden. The leaves are used in many dishes as they have a nutty, floral fragrance/taste and is used as a natural flavour enhancer in many Asian cuisines, particularly rice dishes, desserts and cakes. Leaves also can be used to make sweet drinks or cocktails. Leaf extracts can be used to reduce fever. Hardy plant that can tolerate full sun or part shade.
44	Exotic Shrub	Sheenas Gold	
45	Exotic Shrub	Summerscent	
46	Exotic Tree	Crab Apple - Crimson Knight	
47	Exotic Tree	Crepe Myrtle - Diamonds in the Dark Mix	
48	Exotic Tree	Curry Leaf Plant	A versatile plant to have in the garden where the leaves are used widely in many SE Asian and Indian dishes. MUCH better taste (and health benefits) from fresh leaves as opposed to dry leaves that are more commonly available, making this a great plant to have on hand!
49	Exotic Tree	Forest Pansy - Purple Leaf Eastern Rebud	
50	Exotic Tree	Magnolia - Teddy Bear	
51	Exotic Tree	Ornamental Pear - Capital	
52	Exotic Tree	Ornamental Pear - Chanticleer	
53	Exotic Tree	Pencil Pine	Great low maintenance hardy tree, particularly for more formal landscaping. Looks great lining a driveway, or two placed either side of an entrance. Foliage is aromatic with a blue-green colour.
54	Exotic Tree	Red Maple - Autumn Blaze	
55	Exotic Tree	Thuja Smaragd	
56	Fruit Tree	Abiu	Originating from Upper Amazon where it is highly prized by locals. Fruit is bright yellow when ripe and has a sweet crème caramel flavour. Trees are best grown in pairs for cross pollination, approximately 4-5m apart.
57	Fruit Tree	Avocado - Bacon	Oval shaped with smooth, thin skin dark green in colour. Less oily flesh than hass with a buttery and creamy texture. Type B (pair with a type A)
58	Fruit Tree	Avocado - Fuerte	Pear shaped fruit often hailed as one of the tastiest varieties of avocado with easy to peel fruit. Type B (pair with a type A)
198	Fruit Tree	Avocado - Hazzard	One of the larger avocados with elongated fruit and smooth skin with creamy excellent quality flesh. Type A (pair with a type B)
59	Fruit Tree	Avocado - Lamb Hass	A dwarf avocado that can be pruned to as little as 2m. Fruit is larger and rounder than most avocado varieties with very dark skin. Taste same as classic hass. Type A (pair with a type B)
196	Fruit Tree	Avocado - Pinkerton	A rounded to pear shaped fruit with a thick flesh and smooth texture, great flavour, high oil content. Consistently bears heavy. Small seed. Type A (pair with a type B)
60	Fruit Tree	Avocado - Sharwill	Medium sized, pear shaped fruit with green skin, smooth creamy flesh and a small seed. High oil content with a rich nutty flavour. Type B (pair with a type A)
197	Fruit Tree	Avocado - Wurtz	A dwarf avocado reaching only ~3m if left unpruned. Excellent flavoured dark green Avo and an attractive tree with a weeping habit. Type A (pair with a type B)
61	Fruit Tree	Banana - Blue Java	These stunning bananas are also called 'Ice Cream Bananas' for their super tasty & sweet fragrant flavour which has a vanilla/custard/ice cream like taste. They are cold tolerant, wind resistant and grow to only around 4m on average. Very hardy! To top it off the banana plant itself is particularly attractive with it's silvery large foliage and being one of the few tropical looking plants that can grow in a colder more temperate environment as well as in windy, sunny exposed sites.

62	Fruit Tree	Banana - Red Dacca	These are dwarf plants with a compact and dense form. Unique in both fruit colour and their delicious taste, these bananas are sweeter than cavendish bananas, with a creamy light pink/orange flesh that has a flavour hinting of raspberries. Yields 30-40kg of bananas in around 12 months. The plant itself is a stunning landscape feature with a distinctive red colour throughout the leaf veins and stem
63	Fruit Tree	Blueberry - Biloxi	Very early fruiting Blueberry with a firm medium sized fruit. One of the best low chill blueberry varieties for Brisbane.
64	Fruit Tree	Carob	
65	Fruit Tree	Cherry Guava	
66	Fruit Tree	Chestnut	
67	Fruit Tree	Coconut - Dwarf Malaysian Gold	
68	Fruit Tree	Coconut - Large Green	
69	Fruit Tree	Fig - Brown Turkey	
70	Fruit Tree	Grapefruit - Star Ruby	
200	Fruit Tree	Lemon - Dwarf Meyer	
199	Fruit Tree	Lemon - Eureka SL	
71	Fruit Tree	Lemon - Lemonade	
72	Fruit Tree	Lemon - Lisbon	
73	Fruit Tree	Lemon - Yuzu	
74	Fruit Tree	Lime - Mandarin Lime	
75	Fruit Tree	Lime - Tahitian	
206	Fruit Tree	Loquat - Nagasaki Wase	
76	Fruit Tree	Lychee - Kwai Mai Pink Dwarf	
77	Fruit Tree	Malabar Chestnut	Also known as the Saba nut or Money Tree, the nuts can be eaten both raw or roasted. Raw they taste like peanuts and roasting will make them taste like chestnuts. Very long shelf life (months). The flowers are absolutely stunning and are also deliciously edible. Not a fussy plant and can be grown in most conditions. Very lush looking small tropical tree
202	Fruit Tree	Mandarin - Dwarf Afourer	
203	Fruit Tree	Mandarin - Dwarf Imperial	
78	Fruit Tree	Mandarin - Emperor	
79	Fruit Tree	Mandarin - Imperial	
80	Fruit Tree	Meyer Lemon	
207	Fruit Tree	Miracle Fruit	
81	Fruit Tree	Mulberry - Dwarf Black	Our mulberry plants are our own select variety which reliably produces large quantities of massive fruit every year without fail, yet is a plant that doesn't turn into a large tree (typically maxing out at ~4m). Can be cut back to 1-2m as required. These are cutting propagated.
82	Fruit Tree	Nashi Pear - Nijisekki	
83	Fruit Tree	Nashi Pear - Sunshu	
84	Fruit Tree	Nectarine - Sunbob	
85	Fruit Tree	Orange - Cara Cara Blood	
86	Fruit Tree	Orange - Washington Navel	
208	Fruit Tree	Panama Berry	A beautiful fast growing fruit tree with delicious sweet fruit that taste similar to strawberries but with a hint of caramel, with a soft, juicy texture. Should fruit within just a few months from planting! Fruits and flowers amazingly are produced year round! Responds well to being cut back if height is an issue. Can also be kept in pots!
87	Fruit Tree	Passionfruit - Pandora	
88	Fruit Tree	Pawpaw - Bisex Red	
89	Fruit Tree	Peach - Tropic Beauty	
209	Fruit Tree	Pear - Tropical Bonza	
90	Fruit Tree	Persimmon - Jiro	
91	Fruit Tree	Pomegranate - Wonderful	
204	Fruit Tree	Pummelo - Thai Gold (K13)	
92	Fruit Tree	Raspberry - Heritage	
93	Fruit Tree	Ruby Red Grapefruit	
94	Fruit Tree	Sea Grape	Coccoloba uvifera (Sea Grape) - In addition to the delicious fruit this plant produces, it is also very aesthetic. The foliage is a sensational unique large waxy round leaf (can reach over 30cm!) with red new growth. Tolerates salt, so great around a pool. Flowers are fragrant. The fruit taste just like a grape with a tangy tinge. Absolutely delicious! A must in any landscape
95	Fruit Tree	Tamarillo	Beautiful broad leaved plant with fruit tasting like a cross between tomato and passionfruit. Would suit a tropical themed garden. I've personally found this plant can tolerate wet feet.
205	Fruit Tree	Tangelo - Minneola	
96	Indoor/Shade	Alocasia brisbanensis	Native to Eastern Australian Rainforests. Very large spade shaped leaves. Summer flowers are a heavily perfumed greenish colour.
97	Indoor/Shade	Alocasia macorrhiza	
98	Indoor/Shade	Licuala ramsayi	
99	Indoor/Shade	Peace Lily	
100	Indoor/Shade	Peperomia (Mix)	
101	Indoor/Shade	Philodendron - Black Cardinal	
102	Indoor/Shade	Philodendron - Congo	
103	Indoor/Shade	Philodendron - Lynette	
104	Indoor/Shade	Raphis Palm	
105	Indoor/Shade	Zamioculcas zamiifolia (Zanzibar Gem)	
106	Native Climber	Pandorea Belle of the Ball	

107	Native Groundcover	Callistemon - Rocky Rambler	A spectacular native groundcover that flowers prolifically with bright red bottle brush flowers in Summer which are attractively gold tipped, attracting a myriad birds, small birds (fairy wrens etc), and butterflies. Very hardy and easy to care for! Will tolerate full sun or part shade & will adapt to most soils. Drought proof. Very dense habit also provides a great habitat for endangered lizards in urban environments (ie blue tongue's etc).
108	Native Groundcover	Carex Feather Falls	
109	Native Groundcover	Grevillea - Sunkissed	Compact low mounding grevillea - great for rockeries and containers. Groundcover. Full sun. Drought tolerant.
110	Native Groundcover	Lechenaultia eldorado	Dense, cascading shrub to ~50cm high. Soft green foliage. Masses of brilliant gold and yellow flowers particularly in Spring and Summer but also at other times of the year. Very good for hanging baskets or rockeries. Requires good drainage. Full sun or part shade.
111	Native Groundcover	Leptospermum - Pink Cascade	A stunning small shrub that is covered with pastel pink flowers in Spring. 80cm h x 1.5m wide. Full sun or part shade. Creates a beautiful cascading growth habit (great for rockeries or banks). Great plant for attracting pollinating insects and birds.
112	Native Groundcover	Mix Kangaroo Paws	
113	Native Groundcover	Pelargonium Edna Walling Pop Up	
114	Native Groundcover	Poa labillardieri (Native blue tussock grass)	A stunning native perennial tussock grass endemic to Eastern/Southern Australia. Makes a very
115	Native Shrub	Acmena - Mini Pilly	
116	Native Shrub	Alogyne - Melissa Anne	
117	Native Shrub	Banksia robur	A dramatic fast growing banksia with very large serrated leaves. New growth has an attractive brown felty coating. Very adaptable to a wide range of soils and conditions, but requires full sun for best flowering. Flowers are bluish green and turn yellow as the flower ages. Flowers are fantastic for cut floral displays and are a favourite for nectar feeding birds, bees and butterflies.
118	Native Shrub	Bursaria spinosa	
119	Native Shrub	Callistemon - Little Silver	
120	Native Shrub	Callistemon - Rose Opal	
121	Native Shrub	Callistemon - Sweet burst	
122	Native Shrub	Callistemon Wildfire	An attractive hedging/screening Callistemon that maintains a really nice rounded, compact shape and responds very well to pruning. Very hardy. Prefers full sun. Red flowers produced mainly in Spring. Slightly weeping habit.
123	Native Shrub	Dodonea viscosa (Purple Hop Bush)	An attractive shrub with long, narrow purple-bronze leaves and small red flowers throughout Spring and Summer. Fast growing and makes an attractive hedge, screen or specimen plant. Grows thick when cut back. Full sun or part shade. Can be used for wood, as it's extremely tough and durable (useful for handles), with an attractive reddish finish. Has various medicinal uses (assisting digestive health and skin problems). Can be used in brewing beer.
124	Native Shrub	Eremophila bignoniflora x polyclada	
125	Native Shrub	Grevillea - Moonlight	A beautiful grevillea that flowers all year round! Makes an effective informal screen or hedge. Extremely good for bird attracting. Native birds also love nesting in this particular Grevillea.
126	Native Shrub	Grevillea - Apricot Charm	A very hardy dense shrub with glossy green leaves and pendulous apricot coloured flowers. Can be grown on heavier soils. Good frost tolerance. Great for native nectar feeding wildlife bees etc.
127	Native Shrub	Grevillea - Caboolture	
128	Native Shrub	Grevillea - Caloundra Gem	A stunning dense and fast growing Grevillea with large apricot coloured flowers year round. Perfect for attracting interesting native nectar feeding birds and native bees to the garden. Very tough and will thrive in most environments.
129	Native Shrub	Grevillea - Canberra Gem	A dense shrub with incredible pink/red/white blooms Winter through Spring. Fast growing and hardy full sun plant provided soils are well drained.
130	Native Shrub	Grevillea - Elegance (grafted)	
131	Native Shrub	Grevillea - Fancy Nancy	A stunning grevillea with soft green leaves and masses of bright pink flowers from Winter through to Summer. Very good for attracting native birds, bees and butterflies.
132	Native Shrub	Grevillea - Flora Mason	A beautifully flowering dense grevillea that produces masses of yellow/apricot/pink flowers during colder months. Easily trimmed to desired shape. Very hardy
133	Native Shrub	Grevillea - Forest Rambler	A sprawling bushy shrub 2m High. Yellow/pale pink flowers are produced year round. Drought tolerant and bird attracting. Fast growing and suitable as an informal hedge or feature plant. Very dense!
134	Native Shrub	Grevillea - Kay Williams	Grevillea with particularly attractive silvery foliage and large cream/pink flowers that bloom year round.
135	Native Shrub	Grevillea - Orange Marmalade	Vigorous medium sized shrub with clusters of orange flowers throughout the year. Very bushy and makes an excellent screening plant!
136	Native Shrub	Grevillea - Parakeet Pink (grafted)	
137	Native Shrub	Grevillea - Poorinda Peter	A spreading shrub with very attractive and uniquely shaped dark green leaves displaying bronze new growth. Makes a great informal screen, and both the flowers and foliage are perfect for floral arrangements. Responds very well to pruning. Purple flowers appear in Spring, Summer and Winter. Hardy and will tolerate a wide range of conditions. A favourite for native honey eating birds.
138	Native Shrub	Grevillea - Silvereye Cream (grafted)	
139	Native Shrub	Grevillea - Splendour	Medium spreading shrub 2x2m. Burgundy flowers in spring. Full sun. Great dense growing variety of grevillea that can double as a screening plant
140	Native Shrub	Grevillea - Strawberry Blonde	A spreading medium shrub with very attractive and uniquely coloured huge flowers which bloom year round. Perfect native bird and bee attractor. Very hardy.
141	Native Shrub	Grevillea - Towera	Dense spreading shrub 2.5m x 3m. Pink flowers in Spring. Full sun. Attractive fast growing screening plant.

142	Native Shrub	Grevillea Pink Pearl	Stunning pearl pink flowers bloom Winter through Spring on this small dense shrub. Fast growing and hardy to most conditions. Perfect for low hedging, rockeries, cascading over embankments or as an impressive small feature plant. Bird/butterfly attracting.
143	Native Shrub	Hibiscus heterophyllus	Native rainforest plant across east QLD, the pink/white flower calyxes that bloom abundantly throughout the warmer months make great jam, very similar to the exotic Rosella most are familiar with. Particularly attractive to Lorikeets, honeyeaters and butterflies. Responds very well to pruning. Very hardy and adaptable. Full sun. Can be kept in a pot. Leaves and flowers can also be eaten. Spectacular natural rounded form
144	Native Shrub	Jacksonia scoparia (Dogwood)	Native SE QLD shrub. Yellow pea like flowers appear in proliferation October and November. Drought tolerant. Important butterfly host plant to the Fiery Jewel butterfly and Copper Pencilled Blue Butterfly & Fiery Jewel Butterfly. Full sun. Drought Tolerant.
145	Native Shrub	Kunzea ambigua (Dwarf)	Native to Northern NSW, this spectacular and hardy flowering shrub is very dense and can be useful as a screening plant or standalone specimen. Flowers profusely in Spring; nectar rich flowers attract a variety of native wildlife and in particular attract stunning jewel beetles.
146	Native Shrub	Leptospermum - Burgundy Queen	Stunning drought hardy, dense shrub that gets covered in brilliant magenta flowers in winter and Spring. Full sun. 3m high.
147	Native Shrub	Leptospermum - Lemon Hedge	
148	Native Shrub	Leptospermum flavescens 'Pacific'	Native to Hinchinbrook Island QLD. Low growing cascading form to 1.5m high x 2.5m wide. Pink flower buds open to white flowers August to October. This cultivar has an especially compact growing habit with very profuse flowering.
149	Native Shrub	Leptospermum liversidgei (Mozzie Blocker)	A native East Australian coastal heath plant with leaves that emit a distinct lemony aroma. Emits a natural citronellal oil that acts as a mosquito repellent. Dried leaves can be used as a bushfood spice in tea or food flavouring. Can be pruned to be a dense screening plant. Flowers Spring/Summer.
150	Native Shrub	Leptospermum rotundifolium (Lavender Queen)	Presents an amazing display of pink/purple/white flowers in Spring, when the entire plant becomes engulfed. Makes beautiful cut flowers. Best in full sun. Foliage is also very attractive with neat, small rounded leaves delicate in appearance.
151	Native Shrub	Melaleuca Claret Tops	Dense/compact shrub with beautiful red new growth all year round. Masses of small white flowers through spring. Full sun or part shade. 1.5m high x 1m width. Great for low hedging and screens.
152	Native Shrub	Melaleuca Cotton Candy	A beautiful hardy low maintenance, dense, mounded shrub with bright pink clusters of bottlebrush flowers throughout Spring and Summer. Can be used as a low hedge or a pot plant. Responds well to pruning. Full sun or part shade. Bird/Butterfly attracting.
153	Native Shrub	Melaleuca fulgens 'Mauve'	
154	Native Shrub	Melaleuca lateritia (Robin Redbreast Bush)	Native to WA, a lovely medium sized Melaleuca with a very long flowering period from August through to April. Very hardy. Full sun.
155	Native Shrub	Melaleuca leucadendra	
156	Native Shrub	Melaleuca Sea Mist	
157	Native Shrub	NSW Christmas Bush	Full sun or part shade (prefers full sun). Likes a well drained spot. A very attractive native with dense foliage and creamy flowers in Spring. After flowering, the calyxes turn a bright red for a stunning Christmas spectacle. Can be kept as a large container plant. Responds very well to pruning. Great as either a feature plant or for a screen as it gets quite dense. Long lasting cut flower.
158	Native Shrub	Ozothamnus diosmifolius (Native Rice Flower)	A compact small shrub with curry scented leaves and clusters of white flowers all year round. Trim after each flower flush to trigger a new burst of blooms. Can be used as a feature, pot or low hedge plant. Full sun. Makes superb long lasting cut flowers.
159	Native Shrub	Pittosporum - Miss Muffet	
160	Native Shrub	Prostanthera nivea var. Induta (Snowy Mint Bush)	
161	Native Shrub	Prostanthera ovalifolia (Oval Leaved Native Mint Bush)	Dense shrub with very aromatic leaves and absolutely spectacular masses of showy purple flowers in Spring. Full sun or part shade. Crushed leaves are great as a minty bush spice and are very high in free radical fighting properties.
162	Native Shrub	Stenocarpus Doreen	
163	Native Shrub	Syzygium - Aussie Compact	A native lilly pilly with non invasive roots and (as the name suggests) a very compact form. One of the best around for topiaries and shaping. Makes a great screen or hedge. Glossy green foliage with red/bronze new growth. White native bee attracting flowers in Spring.
164	Native Shrub	Syzygium - Bush Christmas	
165	Native Shrub	Syzygium - Tiny Trev	A super dwarf Lilly Pilly with dense growth, glossy green leaves and orange-red new growth and few flowers. A great hardier and faster growing native alternative to the Japanese Box Plant. Makes a spectacular border, topiary or bonzai. Psyllid proof.
166	Native Shrub	Westringia - Smokey	A small rounded shrub with soft silvery foliage and small white flowers prolifically in Spring. Full sun or part shade position. Can be kept as an attractive potted plant. Flowers are very attractive to butterflies and native bees.
167	Native Shrub	Westringia Jervis Gem	
168	Native Shrub	Westringia Lavender Breeze	
169	Native Tree	Acacia podalyrifolia (Brisbane Silver Wattle)	Quick growing, hardy tall shrub up to 6m high. Attractive silver-grey foliage with golden ball flowers in late winter. Host plant for Tailed Emperor Butterfly.
170	Native Tree	Acmena Hemilampra Dwarf	An excellent screening, hedge or pot plant with dense bright green foliage, which has copper coloured new growth and masses of small white flowers. Grows to 3m High. Fruit and flowers attract bees and birds.
171	Native Tree	Acmena Smithii (Monkey Apple)	Glossy green leaves, summer flowering, winter fruiting rainforest tree. Has flushes of pink new growth with maroon edible berries. Makes a great hedge and can be pruned to keep a 3-5m height. Native to QLD & NSW Rainforests.
172	Native Tree	Archontophoenix cunninghamia (Bangalow Palm)	

173	Native Tree	Cinnamon Myrtle	An incredible bush tucker with cinnamon flavoured/scented leaves when crushed. Leaves can be used in place of conventional cinnamon spice. Can also make a delicious herbal tea. Thrives under either part shade or full sun. Grows very dense and bushy, making it perfect as a screening plant. May be kept smaller with regular pruning.
174	Native Tree	Cupaniopsis anarcaroides (Tuckeroo)	Long Lived rainforest tree native to Eastern and Northern Australia. Very attractive street tree or small feature/shade tree. Non invasive roots, hardy and drought tolerant once established, also suited to any soil type (including clay!). Cream flowers appear in Autumn followed by bright orange bird attracting fruit in Spring. Can thrive in both part shade or full sun.
175	Native Tree	Elaeocarpus eumundi (Eumundi Quandong)	
176	Native Tree	Elaeocarpus grandis (Blue Quandong)	A beautiful iconic large buttressed tree which is critical to native rainforest habitat. Beautiful fringed cream flowers are followed by edible shiny blue fruit; both are highly prized by a vast array of native wildlife, particularly rainbow lorikeets, fruit doves and other parrots. The seeds are highly decorative and useful in a variety of crafts. The fruit itself is nutritious and can be used in jams.
177	Native Tree	Eucalyptus - Baby Blue	
178	Native Tree	Eucalyptus - Dwarf Flowering Gum	
179	Native Tree	Eucalyptus nicholii - Narrow Leaved Peppermint Gum	Very rare Eucalyptus with an attractive weeping willow like appearance with fine dense weeping foliage and a red bark/stems. Important koala food plant. Also great for native bees and birdlife.
180	Native Tree	Eucalyptus pilularis (Blackbutt)	
181	Native tree	Ficus obliqua	Native to Eastern Australia this versatile tree can either be left to grow in a large property as a 60m tree with massive buttress roots, or indefinitely kept in a pot as an attractive indoor plant or spectacular minimal care bonsai specimen with a trunk that will quickly thicken. Fruit is highly favoured by many native parrots.
182	Native Tree	Foxtail Palm	An attractive native QLD rainforest palm with a smooth and slightly bottle shaped trunk and large weeping foxtail like fronds. Perfect for poolside landscaping. Also can be used as a large potted specimen. Full sun or part shade.
183	Native Tree	Golden Penda	Native far north QLD rainforest tree growing to 15m high with a 5m width in good conditions. Very dense bushy foliage and a perfect landscaping plant for screening/windbreaks etc. Puts on a massive show and gets completely covered in large yellow balls of flowers sporadically throughout the year. Flowers are extremely attractive to Rainbow Lorikeets
184	Native Tree	Golden Penda (Expo Gold)	
185	Native Tree	Harpulia pendula (Tulipwood)	A small sized tree with pleasant bushy form and attractive ornamental Fruit. Native to tropical QLD rainforests. Extremely notable and beautiful timber. Light green flowers appear in Spring and Summer. Host plant for Speckled Line-Blue Butterfly.
186	Native Tree	Hoop Pine	Native to rainforests in QLD and NSW. Trees can live to 450 years old! 10cm long cones have nut like edible seeds. Very attractive tree that gives a grand look to any landscape.
187	Native Tree	Hymenosporum flavum (Native Frangipani)	Big glossy leaves give this native tree a nice tropical look, while the extremely fragrant yellow flower clusters can be smelled from a distance. Can be kept as a potted plant. Flowers are extremely attractive to native birds and bees.
188	Native Tree	Illawarra Flame Tree	A spectacular flowering tree and an iconic Australian native. Red leaves and flowers cover the whole tree in a glorious display in Spring. The seed is nutritious and can be eaten after roasting. Attracts bees, butterflies and nectar feeding birds.
189	Native Tree	Ivory Curl	Small rainforest tree native to NE QLD. A profusion of white flower spikes appear over Summer and Autumn. Very good plant for attracting birds and pollinating insects! 10m high. Full sun. Host plant for the Indigo Flash, Bright Cornelian, Small Purple Line-Blue, Pencilled Blue butterflies in this region.
190	Native Tree	Kaori Pine	A magnificent tree for larger gardens. Has a uniquely tall straight trunk with a large crown. Makes a fantastic feature tree in an open position. Can also be used for an indoor plant, it's attractive leathery leaves being a point of interest. Full sun or part shade. Keep moist.
191	Native Tree	Melaleuca linarifolia (Snow in Summer)	Fast growing small tree that puts on an extraordinary show in Summer as its crown gets covered in a dense mass of white fluffy flowers. Great specimen tree/street tree/small shade tree. Perfect for attracting native birds and pollinating insects.
192	Native Tree	Pandanus Sp.	
193	Native Tree	Ptychosperma elegans (Solitaire Palm)	
194	Native Tree	QLD Bottle Tree	
195	Native Tree	QLD Waratah	This is something special! One of the most stunning native rainforest trees available with a spectacular flowering spectacle in Spring. Hardy and adaptable and can be grown on a wide range of soils. Tolerates moderate frost. This is a rare truly head turning tree, and as a bonus will attract a plethora of native birds.
